

# WALDRINGFIELD PRIMARY SCHOOL

## Data Protection Policy

ADOPTED: May 2018

REVIEWED: Annually

DATE OF NEXT REVIEW: May 2019

# Waldringfield Primary School Data Protection Policy

Waldringfield Primary School collects and uses personal information about staff, pupils, parents and other individuals who come into contact with the school. This information is gathered in order to enable it to provide education and other associated functions. In addition, there may be a legal requirement to collect and use information to ensure that the school complies with its statutory obligations.

Schools have a duty to be registered, as Data Controllers, with the Information Commissioner's Office (ICO) detailing the information held and its use. These details are then available on the ICO's website. Schools also have a duty to issue a Fair Processing Notice to all pupils/parents, this summarises the information held on pupils, why it is held and the other parties to whom it may be passed on.

## Purpose

This policy ensures that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the [General Data Protection Regulation \(GDPR\)](#) and the expected provisions of the Data Protection Act 2018 (DPA 2018) as set out in the [Data Protection Bill](#).

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

All staff involved with the collection, processing and disclosure of personal data will be aware of their duties and responsibilities by adhering to these guidelines.

## What is Personal Information?

Personal information or data is defined as data which relates to a living individual who can be identified from that data, or other information held.

## Data Protection Principles

The GDPR is based on data protection principles that our school must comply with.

The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date
- Kept for no longer than is necessary for the purposes for which it is processed
- Processed in a way that ensures it is appropriately secure

This policy sets out how the school aims to comply with these principles.

## Legislation and guidance

This policy meets the requirements of the GDPR and the expected provisions of the DPA 2018. It is based on guidance published by the Information Commissioner's Office (ICO) on the [GDPR](#) and the ICO's [code of practice for subject access requests](#).

This policy meets the requirements of the [Protection of Freedoms Act 2012](#) if referring to use of biometric data. However we do not use biometric data as part of our school policy at this time. Introduction of such data collection methods would require approval by the governing body and this policy would be updated to reflect that change.

This policy also reflects the ICO's [code of practice](#) for the use of surveillance cameras and personal information.

In addition, this policy complies with regulation 5 of the [Education \(Pupil Information\) \(England\) Regulations 2005](#), which gives parents the right of access to their child's educational record.

## Definitions

Term	Definition
<b>Personal data</b>	<p>Any information relating to an identified, or identifiable, individual.</p> <p>This may include the individual's:</p> <ul style="list-style-type: none"><li>• Name (including initials)</li><li>• Identification number</li><li>• Location data</li><li>• Online identifier, such as a username</li></ul> <p>It may also include factors specific to the individual's physical, physiological, genetic, mental, economic, cultural or social identity.</p>
<b>Special categories of personal data</b>	<p>Personal data which is more sensitive and so needs more protection, including information about an individual's:</p> <ul style="list-style-type: none"><li>• Racial or ethnic origin</li><li>• Political opinions</li><li>• Religious or philosophical beliefs</li><li>• Trade union membership</li><li>• Genetics</li><li>• Biometrics (such as fingerprints, retina and iris patterns), where used for identification purposes</li><li>• Health – physical or mental</li><li>• Sex life or sexual orientation</li></ul>
<b>Processing</b>	<p>Anything done to personal data, such as collecting, recording, organising, structuring, storing, adapting, altering, retrieving, using, disseminating, erasing or destroying.</p> <p>Processing can be automated or manual.</p>
<b>Data subject</b>	<p>The identified or identifiable individual whose personal data is held or processed.</p>
<b>Data controller</b>	<p>A person or organisation that determines the purposes and the means of processing of personal data.</p> <p>Waldringfield Primary School is a data controller.</p>
<b>Data processor</b>	<p>A person or other body, other than an employee of the data controller, who processes personal data on behalf of the data controller. We use external data processors to hold and manage our data (e.g. SIMs)</p>
<b>Personal data breach</b>	<p>A breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to personal data.</p>

## Waldringfield Primary school as a data controller

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

The school is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required.

## Roles and Responsibilities

This policy applies to **all staff** employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

- **Governing body**

The governing body has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

- **Data protection officer**

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

The Data Protection Officer (DPO) for Waldringfield Primary School is:  
Kevin Speirs (Deputy Headteacher)  
Contact: 01473 236276 Email: deputy@waldringfield.suffolk.sch.uk

The DPO will provide an annual report of their activities directly to the governing body and, where relevant, report to governors advice and recommendations on school data protection issues.

The DPO is also the first point of contact for individuals whose data the school processes, and for the ICO. Full details of the DPO's responsibilities are set out in their job description.

- **Headteacher**

The headteacher acts as the representative of the data controller on a day-to-day basis.

- **All staff**

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the school of any changes to their personal data, such as a change of address
- Contacting the DPO in the following circumstances:
  - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
  - If they have any concerns that this policy is not being followed
  - If they are unsure whether or not they have a lawful basis to use personal data in a particular way
  - If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
  - If there has been a data breach
  - Whenever they are engaging in a new activity that may affect the privacy rights of individuals
  - If they need help with any contracts or sharing personal data with third parties

## Collecting Personal Data

### Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
- The data needs to be processed so that the school can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life
- The data needs to be processed so that the school, as a public authority, can perform a task **in the public interest**, and carry out its official functions
- The data needs to be processed for the **legitimate interests** of the school or a third party (provided the individual's rights and freedoms are not overridden)
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the GDPR and Data Protection Act 2018.

If we offer online services to pupils, such as classroom apps, and we intend to rely on consent as a basis for processing, we will get parental consent.

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

When staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the [Information and Records Management Society's toolkit for schools](#).

## Sharing personal data

We will not normally share personal data with anyone else, but may do so where:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
  - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
  - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
  - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us

We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud

- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

## **Subject access requests**

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual

Subject access requests must be submitted in writing, either by letter or email to the DPO. They should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested

If staff receive a subject access request they must immediately forward it to the DPO.

## **Children and subject access requests**

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

## **Responding to subject access requests**

When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made

- Will respond without delay and within 1 month of receipt of the request
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary.

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Relates to a safeguarding concern that would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Relates to another child in the school, where the person requesting has no parental responsibility
- Is contained in adoption or parental order records
- Is given to a court in proceedings concerning the child

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further copies of the same information.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

## **Other data protection rights of the individual**

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it, individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data, or object to the processing of it (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest
- Request a copy of agreements under which their personal data is transferred outside of the European Economic Area
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Prevent processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO.

## **Parental requests to see the educational record**

Parents, or those with parental responsibility, have a legal right to free access to their child's educational record (which includes most information about a pupil) within 15 school days of receipt of a written request.

## **Photographs and videos**

As part of our school activities, we may take photographs and record images of individuals within our school. Photographs are taken for a variety of reasons but only in accordance with our data protection responsibilities. Staff follow our Acceptable use of ICT policy at all times when relating to photographic data.

We will obtain written consent from parents/carers for photographs and videos to be taken of their child. This consent is obtained on entry to the school and reviewed annually.

Uses may include:

- Within school on display boards, etc.
- Teacher's ongoing assessment (e.g. Use of Online Learning Journey such as Tapestry) and in children's work books.
- Outside of school by external agencies such as the school photographer, newspapers.
- Online on our school website, prospectus or social media pages (where consent has been given for this purpose).

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

## **Our Data Protection Responsibilities**

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law
- Completing privacy impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Maintaining records of our processing activities, including:

- For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
- For all personal data that we hold, maintaining an internal record of the type of data, data subject, how and why we are using the data, any third-party recipients, how and why we are storing the data, retention periods and how we are keeping the data secure

## **Data security and storage of records**

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage.

In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data are kept under lock and key when not in use
- Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, pinned to notice/display boards, or left anywhere else where there is general access
- Passwords that are at least 8 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff are reminded to change their passwords at regular intervals. Pupils are taught the importance of this as part of the Computing curriculum
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected

## **Disposal of records**

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

## **Personal data breaches**

The school will make all reasonable endeavours to ensure that there are no personal data breaches. In the unlikely event of a suspected data breach, we will follow the procedure set out in appendix 1. When appropriate, we will report the data breach to the ICO within 72 hours. Such breaches in a school context may include, but are not limited to:

- A non-anonymised dataset being published on the school website which shows the exam results of pupils eligible for the pupil premium
- Safeguarding information being made available to an unauthorised person
- The theft of a school laptop containing non-encrypted personal data about pupils

## **Training**

All staff and governors are provided with data protection training as part of their induction process. Data protection will also form part of continuing professional development, where changes to legislation, guidance or the school's processes make it necessary.

## **Monitoring arrangements**

The DPO is responsible for monitoring and reviewing this policy.

This policy will be reviewed and updated if necessary when the Data Protection Bill receives royal assent and becomes law (as the Data Protection Act 2018) – if any changes are made to the bill that affect our school's practice. Otherwise, or from then on, this policy will be reviewed **every year** and shared with the full governing board.

## **Complaints**

Complaints will be dealt with in accordance with the school's complaints policy. Complaints relating to information handling may be referred to the DPO and/or the Information Commissioner (the statutory regulator).

## **Review**

This policy will be reviewed annually. The policy review will be undertaken by the Headteacher and governors, with guidance from the DPO.

## **Contacts**

If you have any enquires in relation to this policy, please contact the school.

Further advice and information is available from the Information Commissioner's Office, [www.ico.gov.uk](http://www.ico.gov.uk) or telephone 0303 123 1113.

## Waldringfield Primary School

Procedures for responding to subject access requests made under [General Data Protection Regulation \(GDPR\)](#) and the expected provisions of the Data Protection Act 2018 (DPA 2018) as set out in the [Data Protection Bill](#).

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them.

If staff receive a subject access request they must immediately forward it to the DPO.

### Actioning a subject access request

1. Requests for information must be made in writing; which includes name of individual, address, contact number, email and the reason for the request. This should be addressed to the Data Protection Officer of the school. If the initial request does not clearly identify the information required, then further enquiries will be made.
2. The identity of the requestor must be established before the disclosure of any information, and checks should also be carried out regarding proof of relationship to the child. Evidence of identity can be established by requesting production of:
  - passport
  - driving licence
  - utility bills with the current address
  - Birth / Marriage certificate
  - P45/P60
  - Credit Card or Mortgage statement

*This list is not exhaustive.*
3. Any individual has the right of access to information held about them. However with children, this is dependent upon their capacity to understand (normally age 12 or above) and the nature of the request. The Headteacher should discuss the request with the child and take their views into account when making a decision. A child with competency to understand can refuse to consent to the request for their records. Where the child is not deemed to be competent an individual with parental responsibility or guardian shall make the decision on behalf of the child.
4. The school will not make a charge for the provision of information. However, we may charge for the following:
  - Should the information request involve multiple copies, the school may charge for photocopying resources, not exceeding the cost of copying and at no more than £10.
5. The response time for subject access requests, once officially received, is 30 days (*not working or school days but calendar days, irrespective of school holiday periods*).
6. The GDPR allows exemptions as to the provision of some information; *therefore all information will be reviewed prior to disclosure.*
7. Third party information is that which has been provided by another, such as the Police, Local Authority, Health Care professional or another school. Before disclosing third party information consent should normally be obtained. There is still a need to adhere to the 30 day statutory timescale.

8. Any information which may cause serious harm to the physical or mental health or emotional condition of the pupil or another should not be disclosed, nor should information that would reveal that the child is at risk of abuse, or information relating to court proceedings.
9. If there are concerns over the disclosure of information then additional advice should be sought.
10. Where redaction (information blacked out/removed) has taken place then a full copy of the information provided should be retained in order to establish, if a complaint is made, what was redacted and why.
11. Information disclosed should be clear, thus any codes or technical terms will need to be clarified and explained. If information contained within the disclosure is difficult to read or illegible, then it should be retyped.
12. Information can be provided at the school with a member of staff on hand to help and explain matters if requested, or provided at face to face handover. The views of the applicant should be taken into account when considering the method of delivery. If postal systems have to be used then registered/recorded mail must be used.

### **Complaints**

Complaints about the above procedures should be made to the Data Protection Officer (DPO) and/or Chair of the Governing Body who will decide whether it is appropriate for the complaint to be dealt with in accordance with the school's complaint procedure.

Complaints which are not appropriate to be dealt with through the school's complaint procedure or DPO can be dealt with by the Information Commissioner. Contact details of both will be provided with the disclosure information.

### **Contacts**

If you have any queries or concerns regarding these policies/procedures then please contact Mr Kevin Speirs (Deputy Headteacher and DPO)

Further advice and information can be obtained from the Information Commissioner's Office, [www.ico.gov.uk](http://www.ico.gov.uk) or telephone 0303 123 1113.

## Personal data breach procedures

This procedure is based on [guidance on personal data breaches](#) produced by the ICO.

- On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO
- The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:
  - Lost
  - Stolen
  - Destroyed
  - Altered
  - Disclosed or made available where it should not have been
  - Made available to unauthorised people
- The DPO will alert the headteacher and the chair of governors
- The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary. (Actions relevant to specific data types are set out at the end of this procedure)
- The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen
- The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:
  - Loss of control over their data
  - Discrimination
  - Identify theft or fraud
  - Financial loss
  - Unauthorised reversal of pseudonymisation (for example, key-coding)
  - Damage to reputation
  - Loss of confidentiality
  - Any other significant economic or social disadvantage to the individual(s) concerned
 If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.
- The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored by the School Administrator within the Data Protection Record on the school's computer system.
- Where the ICO must be notified, the DPO will do this via the ['report a breach' page of the ICO website](#) within 72 hours. As required, the DPO will set out:
  - A description of the nature of the personal data breach including, where possible:
    - The categories and approximate number of individuals concerned
    - The categories and approximate number of personal data records concerned
  - The name and contact details of the DPO

- A description of the likely consequences of the personal data breach
- A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned
- If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible
- The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:
  - The name and contact details of the DPO
  - A description of the likely consequences of the personal data breach
  - A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned
- The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies
- The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:
  - Facts and cause
  - Effects
  - Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored on the school's computer system as part of Data Protection records

- The DPO and headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

### **Actions to minimise the impact of data breaches**

We will take actions to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

### **Possible data breach examples**

Below are examples of possible data breaches that could occur.

- Sensitive information being disclosed via email (including safeguarding records)
- Personal details (including staff, parents, children, etc.) being published on the school website
- Non-anonymised pupil exam results or staff pay information being shared with governors or via the school website
- A school laptop containing non-encrypted sensitive personal data being stolen or hacked
- The school's cashless payment provider being hacked and parents' financial details stolen

There are many possible risks to data but the school takes every possible precaution to prevent this from happening. The school will regularly review procedures and assess risk when making data protection decisions.
